Professional Summary

Instructional Designer with a strong foundation in higher education and over a decade of teaching, curriculum design, and learner facilitation. Skilled at applying adult learning principles to training contexts, designing impactful programs that drive workforce performance and career readiness. Experienced in scenario-based learning, curriculum development, and transforming complex technical subject matter into structured, learner-centered digital content using ADDIE and SAM frameworks. Adept at collaborating with SMEs and leveraging SCORM/xAPI analytics, adaptive learning models, and agentic AI workflows to optimize organizational learning outcomes and support business goals.

Core Skills & Technologies

Instructional: Adult Learning Theory (Andragogy), Learning Experience Design (LXD), Curriculum Architecture, Storyboarding, Scenario-Based Learning, Instructional Alignment

Authoring: Articulate Storyline & Rise, Adobe Captivate, Camtasia, Canva, Adobe InDesign

LMS & Data: SCORM, xAPI, LMS Management, Learning Analytics, Evaluation & Assessment Design, UI/UX for Learning

AI & Tech: Agentic AI Workflows, Adaptive Learning, AI Personalization, HTML, CSS, JavaScript

Experience

Self-directed Learning

Professional Development & Portfolio Projects

May 2025 – Present

- Developed interactive, scenario-based eLearning modules for higher education and professional development.
- Built responsive learning assets using Articulate Storyline, Rise, InDesign, Camtasia, and Canva.
- Integrated SCORM/xAPI standards to capture and analyze adult learner behavior data for course iteration.
- Architected Agentic AI workflows and adaptive learning strategies to personalize digital learning paths.

Private Coaching

Freelance Tutor

Mar 2025 – Feb 2026

- Delivered targeted conceptual coaching in advanced Mathematics to maximize learner autonomy.
- Instructed university-level courses in Thermodynamics, Heat Transfer, and Fluid Mechanics.

SR University

Assistant Professor

Warangal, India

Dec 2020 – Dec 2024

- Designed outcome-based, adult learner-centered courses aligning academic pathways with industry demands.
- Deployed intuitive, UI/UX-optimized digital learning content across the university LMS to boost engagement.
- Conceptualized and instructed an innovative elective: *Machine Learning in Mechanical Engineering*.
- Mentored undergraduate research cohorts using structured evaluation rubrics and continuous feedback methods.

IARE

Assistant Professor

Hyderabad, India

Oct 2008 – Dec 2011

- Spearheaded experiential learning initiatives across core engineering courses tailored to adult learners.
- Produced instructional materials and multimedia modules that enhanced curriculum alignment and performance.

Portfolio Highlights

Direct Link: bohra-nitin.github.io/Portfolio

Focus Areas: Interactive eLearning Modules | xAPI Tracking | Agentic AI Workflow | Predictive Analytics

Education

2012 – 2021: **Ph.D. in Mechanical Engineering** – IIT Madras (*MHRD Doctoral Fellowship Recipient*)

2006 – 2008: **M.Tech in Heat Power Engineering** – VNIT Nagpur (*MHRD Postgraduate Fellowship Recipient*)

2002 – 2006: **B.Tech in Mechanical Engineering** – DVR College, JNTUH

Leadership & Service

Mar – Sep 2023: Head of Department, Mechanical Engineering – SR University

Feb 2024: Convener, 2nd Congress on CRM – SR University
