

1. CONTEXT SUMMARY

NexaTech Solutions Pvt. Ltd. is a B2B SaaS company experiencing a decline in sales conversion rates from 32% to 25%. The sales team is struggling to communicate value propositions, handle pricing objections, and negotiate with clients. This results in a revenue impact of ₹4.5 Cr loss per quarter.

2. PROBLEM STATEMENT

The main problem is the low confidence of the sales team in handling negotiation skills, product knowledge, and objection handling, leading to a significant decline in sales conversion rates.

3. LEARNING OBJECTIVES

To increase conversion rates from 25% to 35%, reduce discount dependency by 15%, and improve average deal closure time.

4. SKILL GAP ANALYSIS

The sales team has a significant gap in expected skills, including negotiation skills, product positioning, objection handling, and consultative selling approach.

5. PRIORITY SKILLS

Top priority skills are negotiation skills, product positioning, and objection handling, as identified by stakeholders and learners.

6. LEARNER PERSONAS

Three learner personas are identified:

- ❖ Struggling Performers: Low confidence, avoid client interaction (45%)
- ❖ Average Performers: Basic understanding, inconsistent execution (40%)
- ❖ High Performers: Confident, use structured approach (15%)

7. RECOMMENDED LEARNING INTERVENTION

A blended learning solution is recommended, consisting of:

- ❖ Sales Enablement Workshops (virtual) with negotiation skills, product positioning, and objection handling (4 hours)

- ❖ Online Product Documentation (for reference)
- ❖ Recorded Demos (for product knowledge)
- ❖ Structured Training Program (4 days) focusing on consultative selling approach and low hanging fruit

8. CONTENT DISTRIBUTION STRATEGY

Content will be delivered through:

- ❖ Online Learning Platform
- ❖ Live Sessions (15-minute sessions, once a week)
- ❖ Interactive Scenarios/Role-plays (15 minutes, once a week)

9. ASSUMPTIONS

Assuming that the learning program will be completed within 4 weeks, and learners will have access to a learning platform for 6 months.

10. RISKS & RED FLAGS

Risks include:

- ❖ Learners not completing the program within the given timeframe
- ❖ Inadequate mobile device access for learners
- ❖ Competing priorities leading to inconsistent training schedules

11. KEY INSIGHT (CRITICAL)

The key insight is that there is a clear mismatch between stakeholder assumptions ("lack of effort") and learner reality ("lack of clarity and confidence").

12. CLARIFICATION QUESTIONS

Questions for further clarification:

- ❖ What is the impact of the product messaging on the sales conversion rate?
- ❖ How can the company ensure that the sales team is confident in their product knowledge?
- ❖ What is the current state of the product documentation, and how can it be improved?

13. META-COGNITIVE REFLECTION

Reflection: Potential risks arise from inadequate preparation, lack of engagement, and learner perspectives not considered. Validation is needed to ensure the effectiveness of the learning program.

14. DATA SOURCES USED

The data used is from the meeting notes and survey analysis report, providing stakeholder and learner insights.
